Impeccable

Our mission is to enhance the world's interior surfaces and washroom products through innovation and technology.

Committed to three core values - reliability, competence and care - we're known for our integrity and dedication. We listen to your challenges and provide a solution that delivers.

With substantial experience in many market sectors, we have a comprehensive understanding of each. We're able to address unique challenges and develop effective solutions. You can be confident that you'll receive dedicated, relevant customer care.

Built to last

We succeed through impeccable service. For over 25 years, Trovex Washrooms has been committed to the relentless pursuit of excellence.

Our washroom products are manufacturing in the UK in two factories using state of the art machinery and production processes enabling us to consistently deliver quality.

Cubicle systems

Built to last

Essential

S3:60

Essential

S3:60

Designed for
high traffic
environments

Designed to perform in the most demanding environments, Trovex Essential offers a stunning appearance, outstanding strength and requires minimal ongoing maintenance. Decades of continuous improvement have led to these characteristics of quality.

Printing service

Cubicle Systems

Designed for maximum privacy

Privacy
T1:90

PRIVACY

T1:90

Security & safety

Schools and offices are bustling places full of activity. During break times, the washroom can be extremely busy. Everyone deserves privacy and respect, particularly in the washroom environment.

Privacy is a full-height cubicle system that provides total privacy. Perfect for secondary school environments and corporate facilities, it is suitable for high levels of use, while the contemporary design reduces the likelihood of vandalism.

Printing service

Create an inviting washroom environment with our printing service available on cubicle doors and vanity panels. Choose from our range of images or purchase from any stock image website.

Call us to learn more on [01707 254 170](tel:01707254170)

Privacy features

Total privacy whilst providing a durable, long-lasting solution for your contemporary washroom.

› 12mm solid grade laminate

› Full-height cubicle system with minimal floor and ceiling gaps, for privacy

› Aluminium hardware

› Anti-finger-trap hinges for safety

› Simple installation using floor channels and a unique levelling system

› Secure clip-panel system for easy maintenance

› Bullnosed headrail for a sleek appearance

› Pre-drilled components for faster installation

› Co-ordinating duct panelling and vanity units

› Enhance with Smarttrough and Smartwash units

› Wide choice of colour schemes available
